Liebe Pädagogen! Liebe Eltern!
 Mit dem Poly-M MOSAIC werden
 Kinder spielerisch angeregt, Buchstaben,
 Zahlen und vieles mehr kennen zu lernen.
 Nach eigener Fantasie oder nach
 Vorlage können sie mit den farben-
 frohen Stecksteinen Modelle auf
 den Poly-M Basisplatten entwerfen.
 Eine besondere Herausforderung für alle
 Kinder ist die Kreativvorlage. Hier werden
 die Kinder zu Designern, die eigene
 Entwürfe gestalten, ausmalen und nach-
 bauen. Das Poly-M MOSAIC verbindet
 Spaß am Spielen mit der Förderung der
 Kreativität und Feinmotorik und ist
 deshalb ideal für Kindergarten- und
 Vorschulkinder.

PolyM
 Education

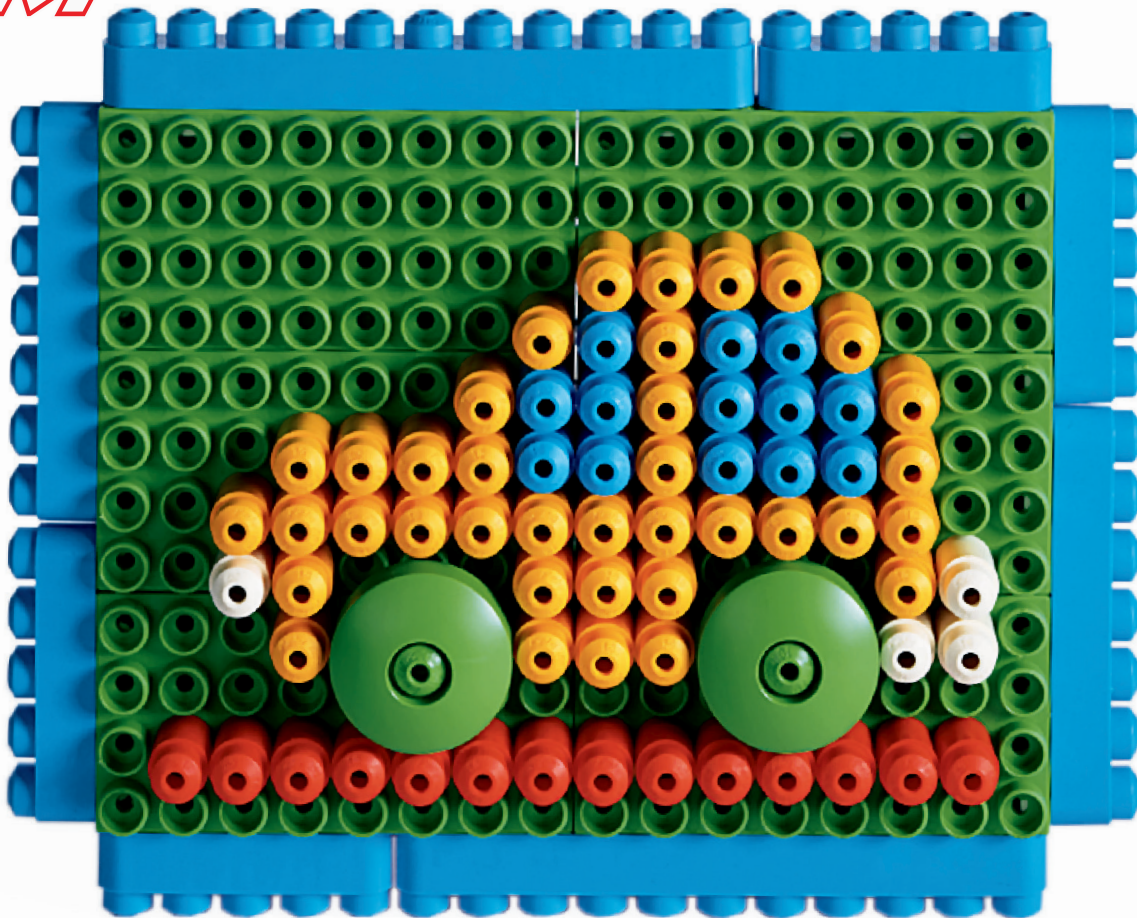

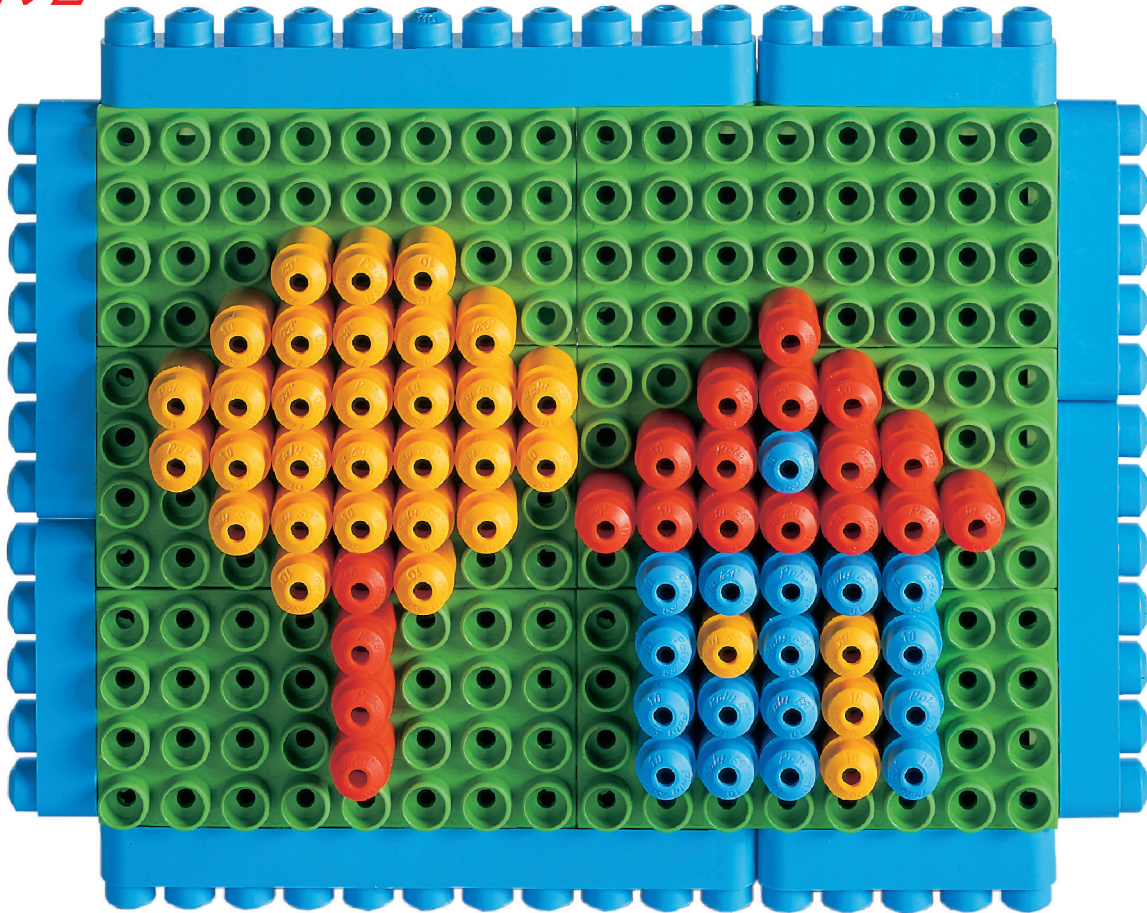

Dear educators, dear parents,
 With the Poly-M MOSAIC children
 are encouraged, in a playful way,
 to discover the letters of the alphabet,
 numbers and many other things.
 The colourful pegs together with
 Poly-M base plates allow children
 to re-create given patterns or to create
 patterns from their own imagination.
 The "creative pattern grid" presents a
 particular challenge to all children.
 Here they become real designers, by
 drawing up designs of their own,
 colouring them and finally putting
 them into practice.
 Poly-M MOSAIC combines fun and
 play with the development of creativity
 and fine motor skills. Thus it is ideal for
 pre- and infant school children.

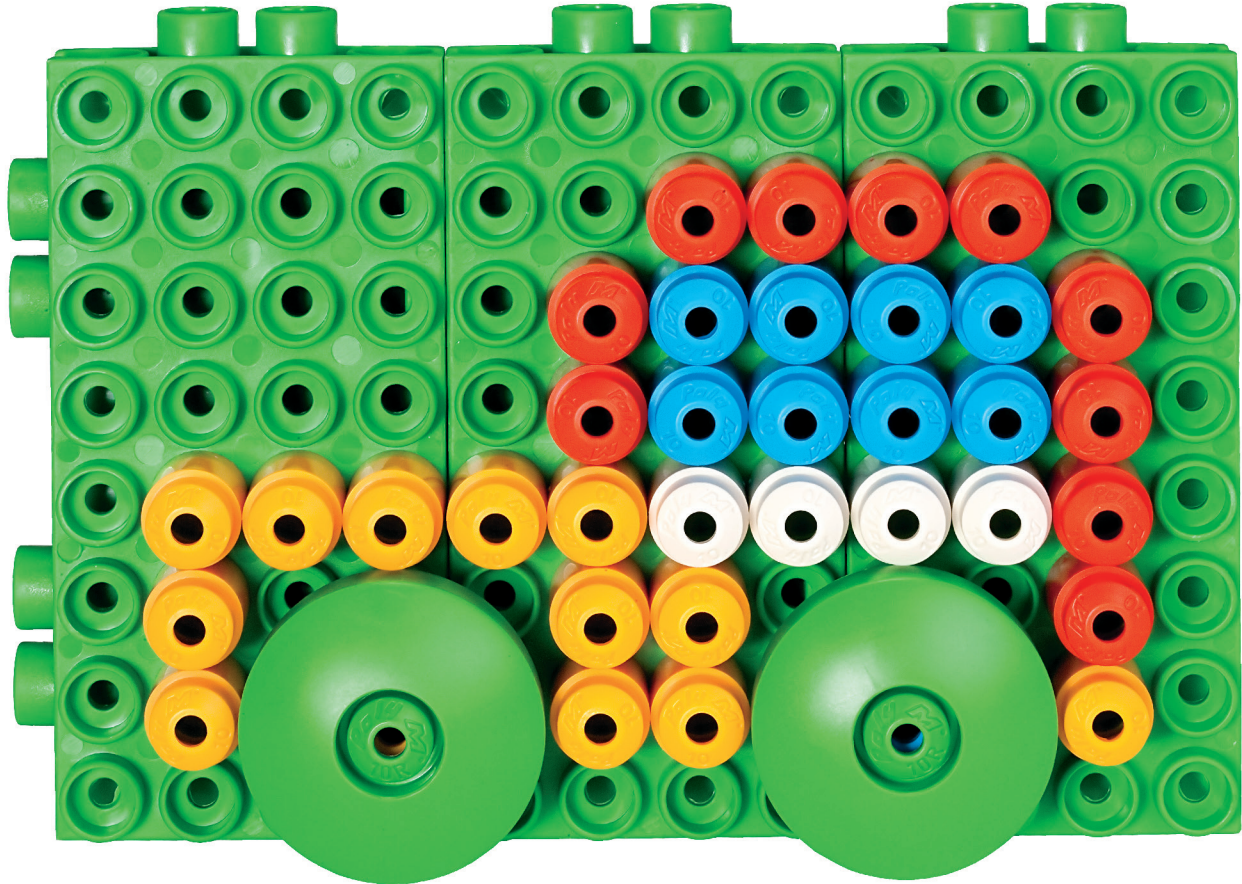

¡Estimadas educadoras!
 ¡Estimados educadores!
 El mosaico de Poly-M anima de forma
 lúcida a los niños a conocer letras,
 números y mucho más. Los niños
 pueden construir modelos colocando
 los coloridos bloques sobre las placas
 base de Poly-M según su propia fantasía
 o siguiendo un patrón.
 Un reto especial para todos los niños es
 el patrón creativo. Los niños se convierten
 en diseñadores que crean sus propios
 diseños, los colorean y construyen
 siguiendo su patrón.
 El mosaico de Poly-M combina la
 alegría de jugar con el fomento de la
 creatividad y motricidad fina y es por lo
 tanto idóneo para niños en edad de
 parvulario y pre-escolar.

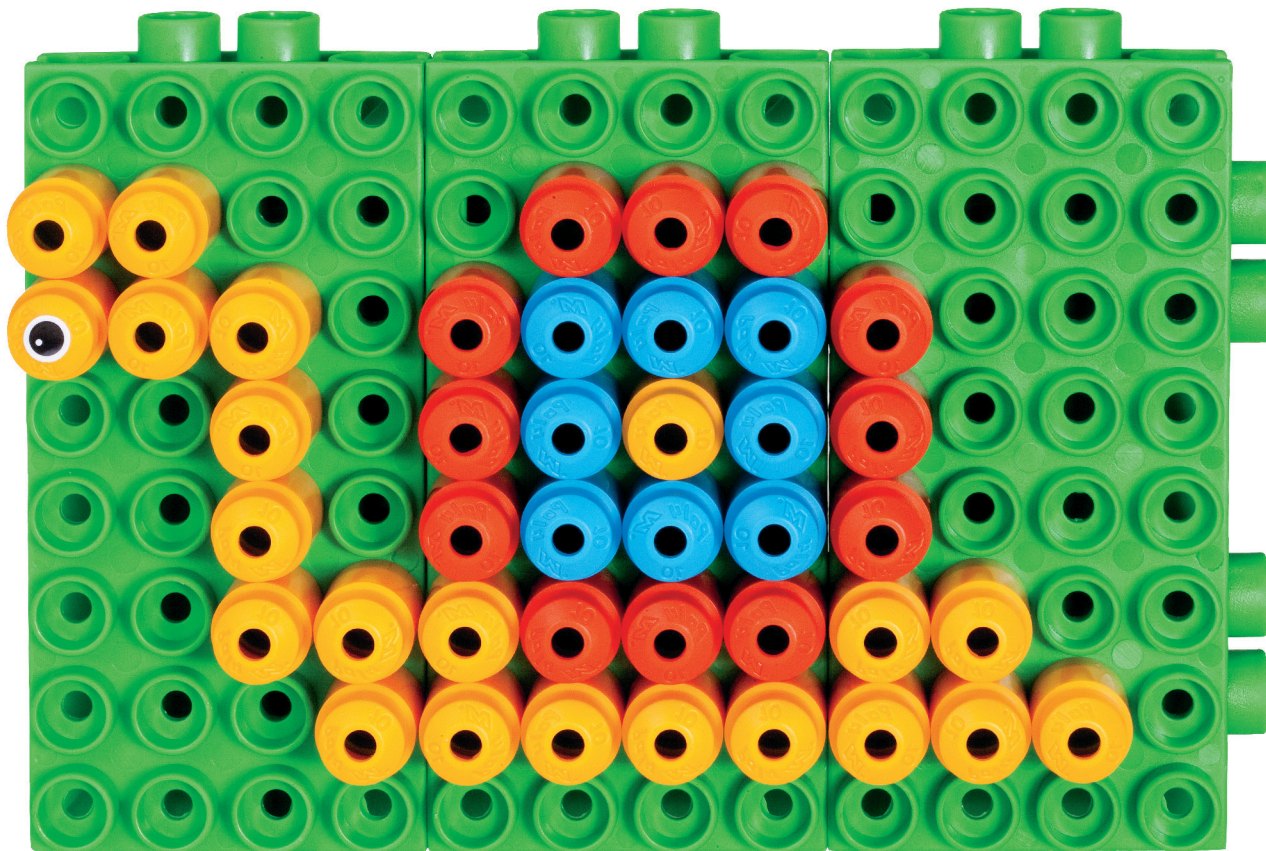

Chers parents, chers enseignants,
 Avec la mosaïque de Poly-M, les
 enfants pourront reproduire de
 nombreux modèles, mais aussi les
 chiffres et les lettres de l'alphabet.
 La grille vierge en taille réelle pourra
 être utilisée de 2 façons:
 - Après avoir réalisé une figure avec
 les pions, l'enfant la reproduira en
 coloriant la grille.
 - A l'inverse, il pourra laisser libre
 cours à son imagination en créant
 un modèle original par coloriage,
 il suffira alors de plastifier celui-ci,
 pour qu'il devienne définitif.
 Dans tous les cas, la mosaïque de
 Poly-M permet à l'enfant d'exercer
 son habileté manuelle et sa créativité
 dans le plaisir du jeu. C'est un jeu idéal
 pour les enfants qui fréquentent l'école
 maternelle ou d'autres établissements
 péri-scolaires.
