Mimido ist ein innovatives Konstruktionspielzeug, das sich aus vielen verschiedenen Formen zusammensetzt, mit denen Kinder auf ganz unterschiedliche Weise bauen und konstruieren können.

Durch die Proportionen der einzelnen Teile mit ihren verschiedenen Ecken und Kanten lassen sich viele verschiedene Objekte konstruieren, die für ein unbegrenztes Spiel voller Möglichkeiten und Spaß sorgen.

Die hölzernen Teile haben einfache, geometrische Formen und immer die gleiche Dicke. Durch ihre spezielle Form können aus ihnen verschiedenste Gebäude, Strukturen, Landschaften und viele andere kreative Konstruktionen gestaltet werden.

Einige der Teile sind in den Farben orange, grün und blau gebeizt, während ein Großteil der Teile in der natürlichen Holzstruktur gehalten ist. Mimido besticht durch eine hochwertige Oberfläche und klare Formensprache.

Mit Mimido können Kinder einzigartige Spielwelten erleben!

Mimido is an innovative construction game with many wooden shapes, which can be assembled in different ways.

The corners, the edges and the proportion of the pieces allow to create a lot of elements in a never ending play which is free and amusing.

The wooden elements have simple but special geometrical shapes, and they all have the same thickness. Their features offer various combinations as to create buildings, structures, environments, and many other creative constructions.

Some pieces are coloured in orange, green or blue, while the others show the natural textures of wood; Mimido has a high-quality finishing and a pure form aesthetics.

With Mimido children can experience a very unique playing experience!

 Autoren

Mimido wurde von zwei Schwestern, einem Bruder und deren Freund erfunden: Jannemeis, Renee und Jochem Snels, und ihr Freund Charles Steijger: Vier kreative Köpfe, die noch immer gerne spielen. Alle sind Niederländer, haben Kinder und einige sogar schon Enkelkinder. Da sie Idealisten sind, wollten sie ein Spielzeug entwickeln, das Kinder aller Altersstufen nutzen können und das darüber hinaus robust ist und viele Jahre halten wird. Mimido ist das Ergebnis.

 Authors

Mimido has been invented by 2 sisters, a brother and a friend: Jannemeis, Renee and Jochem Snels, and Charles Steijger: four people with a creative mind and who still love to play. All are Dutch, have kids and some even grandchildren. As they are all idealistic they wanted to invent a toy that can be used by kids all ages and which will last many years. Mimido is the result.

 Die Beispiele sind nach unterschiedlichen Kategorien und Schwierigkeitslevels geordnet. Die Schwierigkeitslevels werden mit einem (leicht), zwei (mittel) oder drei (schwierig) Sternen dargestellt.

 The examples have been organised into different categories shown by icons and according to three difficulty levels, represented by one (easy), two (medium) or three (hard) stars.
