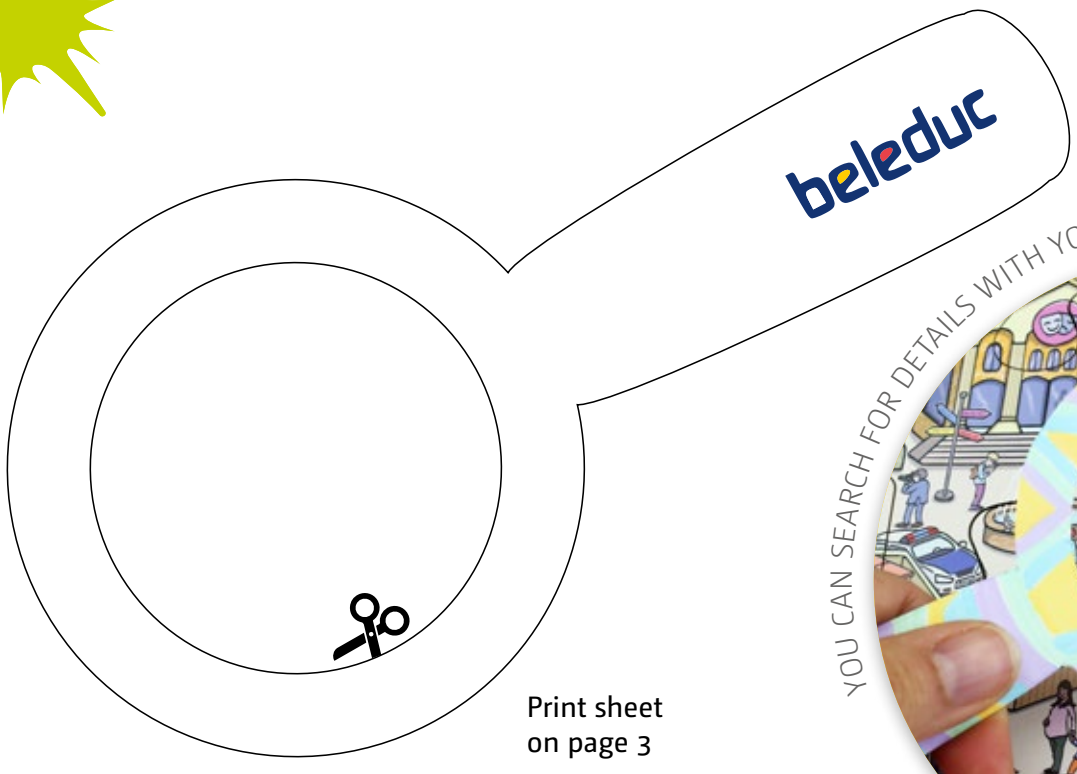
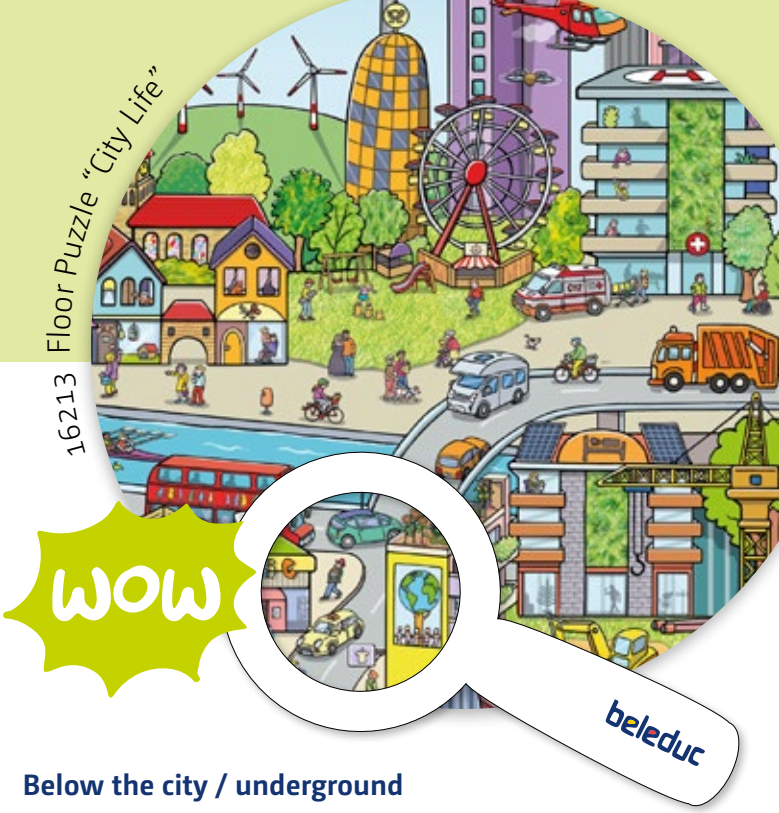
Use the beautiful colours of the Acrylic Painter · 52085



Print sheet on page 3

YOU CAN SEARCH FOR DETAILS WITH YOUR MAGNIFYING GLASS.

SEARCH AND FIND



Above the city / in the sky

How many pigeons do you see in the sky and on the roofs?
There are three pigeons in the top section of the puzzle: two in the air and one on the roof of the ice cream parlour.

Look for the man on the roof of the ice cream parlour. What is he doing there?
He is a chimney sweep and looks after the chimney.

Find the person standing in front of the Ferris wheel. What happened to them?
Ugh, the person has stepped in a dog poo.

What are the two people in the hot air balloon observing?
They might be watching the helicopter land or the wedding couple in front of the town hall.

Count the people standing on the balcony of the hospital. How many are there?
There are four people on the balcony.

In the city centre

What animals can you see here? Count and name them.
7 dogs, 3 cats, 8 pigeons, 6 mice/rats, 1 bird, 1 parrot, 1 squirrel, 1 raccoon and many bees.

Count the people on the boat. How many are there?
There are four persons on the boat.

Find the person who had an accident. What do you think happened.
The person may have hit the kerb with their tyre and fallen over as a result.

Find the sleeping man on the bench in front of the fountain. Who is stealing his lunch?
A cheeky squirrel steals his lunch.

Find the child with the teddy bear.
The child with the teddy bear walks with his mother in front of the vegetable stall.

Below the city / underground

How many blue cars are parked in the underground parking garage?
There are two blue cars in the underground parking garage.

Count the workmen working on the pipes under the city.
Four workmen are working on the pipes.

Find the researcher underground. What is he investigating?
The researcher examines the dinosaur bones.

What time does the clock in the railway station show?
The clock shows 1 o'clock. As it's light outside, it's probably 1 o'clock at midday.

How many pigeons have strayed into the railway station?
Two pigeons have strayed into the railway station.

General

Count the persons that are looking out of a window. How many are there?
Four people are looking out of a window. Six people are on balconies.
